

The Segmented Riser is 24" diameter and 8" tall. Comprising three segments, it takes only a quarter of the shipping space of comparable risers.

### Benefits:

- Highly durable and strong ABS polycarbonate blend
- Will not deform while backfilling
- Fully customizable
- Multiple molded-in flat surfaces and drilling dimples
- Stack sections for desired height
- Easy to ship and saves on storage space
- Adapter ring available
- For new or existing tanks
- Holds up to long-term sun exposure
